Final-year Computer Science student specializing in AI and Data Engineering. Proven track record in developing Machine Learning models and Optimization Algorithms. Skilled in Python, SQL, and Full-Stack Development, seeking a Graduate Data or Software Engineering role.

Education

Aston University

Sep 2022 – Sep 2026

BSc (Hons) Computer Science

Luton Sixth Form College

Sep 2021 – Aug 2023

Level 3 BTEC: Business, ICT Extended Certificate, Travel and Tourism

All Saints Academy Dunstable

Sep 2017 – Sep 2021

9 GCSEs including Mathematics, English and Science

Technical Projects

Stroke Prediction Model (Machine Learning)

- Designed an ensemble ML model to predict stroke likelihood using **Python (Scikit-Learn/Pandas)**.
- Implemented SMOTE to handle class imbalance, achieving high diagnostic accuracy.

Logistics Optimization Algorithm (PSO)

- Developed a Particle Swarm Optimization algorithm in **Python** to solve complex logistics routing problem.
- Created visualizations to demonstrate convergence efficiency against fixed baselines.

Team E-Commerce Platform

- Backend Lead for a 9-person team. Built secure Authentication (**Laravel/PHP**) and managed Git version control.

Employment

Costa Coffee Houghton Regis - Barista

March 2022 – Dec 2023

Self Employed - Online seller

Sep 2020 – April 2023

- Achieved consistent high customer ratings by managing inventory logistics, digital photography, and pricing strategies.

McDonalds - Crew member

Nov 2021 – May 2022

Skills & Languages

- Technical Skills: Python (Scikit-Learn, Pandas), Machine Learning, Java, SQL, Laravel, CSS, HTML
- Soft skills: Teamwork and Communication, Time Management, Problem Solving
- Languages: Native English & Italian, Intermediate Twi, Written Korean, Basic French

Interests

- *Web Development, Church Community Leadership, Volunteering*
